PROFESSIONAL SUMMARY

Full-stack Software Engineer with strong backend development expertise using Django and Django REST Framework. Proven experience in developing 500+ RESTful APIs, building scalable web applications, and implementing secure authentication systems. Skilled in Python, database design, and modern web technologies with a focus on creating high-performance, user-friendly solutions.

TECHNICAL SKILLS

Programming Languages: Python, Dart, SQL, Java, HTML, CSS, JavaScript
Backend Frameworks: Django, Django REST Framework, Flask
Frontend Frameworks: Angular, Vue.js, React.js, Flutter, Bootstrap
Databases: PostgreSQL, MySQL, SQLite, Firebase, Cloud Firestore
Tools & Technologies: Docker, Celery, Git, GitHub, Postman, Selenium
Development Environments: Visual Studio Code, PyCharm, IntelliJ IDEA, Atom
Specializations: RESTful API Development, Authentication & Authorization, Payment Integration, Database Design

WORK EXPERIENCE

Backend Developer | XRON TECH OFFICIAL | April 2025 - Present

- Built and deployed complete backend systems for Health and Tech platforms using Django and Django REST Framework
- Implemented secure authentication, authorization, and role-based access control systems
- Developed scalable database architectures using MySQL for high-performance applications
- Collaborated with cross-functional teams to deliver robust backend solutions

Backend Developer - Django | DAWOODPROUD | June 2024 - September 2024

- Designed and developed complete backend infrastructure for social media platform using Django and Django REST Framework
- Implemented multi-user access controls, payment integrations, and subscription management systems
- Developed scalable solutions for handling user queries and automated support workflow processes
- Created secure authentication and authorization mechanisms for enterprise-level applications

KEY PROJECTS

Multi-Store E-commerce Platform

- Built scalable multi-vendor backend system for unified e-commerce platform
- Integrated secure authentication, payment processing, and real-time order tracking
- Developed high-performance APIs for product management, order processing, and inventory control
- Technologies:** Flutter, Dart, MySQL, Firebase, Cloud Firestore, Figma

Social Media Web Platform

- Built complete backend for social media platform with multi-user support and role-based access

- Designed, tested, and optimized RESTful APIs using Postman for seamless frontend integration
- Implemented secure authentication, route handling, and database integration
- **Technologies:** Django, Django REST Framework, MySQL, Postman

EDUCATION

Bachelor of Science in Software Engineering

University of Engineering & Technology, Taxila, Pakistan
August 2021 - June 2025

FSc Pre-Engineering

Government Degree College, Taxila, Pakistan
September 2019 - July 2021

KEY ACHIEVEMENTS

- Developed 500+ RESTful APIs for mobile applications and responsive web platforms
- Designed and integrated smart dashboards with dynamic data handling and user-friendly interfaces
- Successfully implemented secure payment integration and subscription management systems
- Built scalable backend solutions handling high-volume user queries and automated workflows
